Introduction

Thank you for your interest in Frozen X-plosion. We hope that you will have as much fun creating and even redesigning these drinks to your specifications. In this recipe book you will find many fun and exotic recipes for Frozen X-plosion along with the more common frappe and smoothie drink profiles. Also included is a cut sheet of all the different sized drinks, throughout the recipe book we have built our recipes around a 16oz. drink however like previously stated there is a cut sheet included to help you with making drinks in various sizes. As you will also see, we have many recipes for both Granita machines as well as soft serve applications, we hope that you will look at these because they are also a great cheap tasting way to serve Frozen X-plosion with low drink cost and amazing profitable potential.

Again we thank you for your interest in Frozen X-plosion and hope that you have as much fun with it as we have, if you have any further questions please do not hesitate to contact us via email or by phone

On the next page we would like to talk with you a little more about what Frozen X-plosion is actually about and how you will benefit from it.

What is Frozen Xplosion

So what is Frozen Xplosion? What makes Frozen Xplosion so different from all the other Frappe brands on the market? We would like to share with you some of the amazing attributes of Frozen Xplosion that set us apart from all the other brands on the market.

Here are a few highlights about Frozen Xplosion:

Neutral Base – No instant coffee or flavorings. Allows you to feature your unique coffee or create your own signature drink.

One Base Makes All Frozen Drinks – No need to stock all those cases of each flavor on your menu.

Consistently Ranks #1 in Taste Tests – Better tasting drinks brings more customers

Minimal Storage Requirements - Save shelf space

Minimal Investment – Turn a few hundred dollars into thousands of dollars very quickly

Two Year Shelf Life - No refrigeration required

No Trans Fats, No Cholesterol, Lactose Free, Gluten Free - Needs no milk to create creamy drinks

Large Recipe Book – Free, online access to over 200 recipes to enhance creativity

Versatile - Mix with fruit, juice or coffee for all your frappes & smoothies

These are only a few of the amazing qualifications of Frozen Xplosion but the real advantage and strength of Frozen Xplosion is that quite frankly the sky is the limit when it comes to your creativity. With FX any drink that comes to mind and sounds appealing to your taste buds is 100% possible.

If you decide to feature lemonade smoothies at your establishment, you are able to take either real fresh squeezed lemons, lemon juice or even our FX Lemonade syrup and create all different types of lemonade smoothies throughout the year.

Since Frozen Xplosion is also sold internationally it further solidifies the versatility of FX. For example; we at one time had to come up with a drink profile for a company in Indonesia. After our research team had looked into the region to see what the preferred drinks of the Indonesians were, we came up with our Indonesian smoothie: Chocolate/Avocado, while this is not such a favorite with us they loved it. In Saudi Arabia they mix in dates with FX and have a very nice, well balanced date smoothie. In Mexico they have a drink called “Horchata”, basically it is rice milk with cinnamon. Needless to say it turned out to be a hit in Mexico as well as in the United States.

Frozen Xplosion is also not limited to smoothies, we have had bakeries in the past use it in their baked goods by adding cookies or cinnamon rolls-what a great way to use “day old” pastries.

Other establishments use it as a creamer for coffee.

FX Frappes can be made with coffee, espresso and even instant coffee, (just add chocolate for a marvelous mocha).

With wine and berry juice, FX will make a refreshing after dinner drink.

FX smoothies can be made with fresh fruit, frozen fruit, fruit concentrate, and fruit powders.

Not to mention the Granita machine and soft serve applications that Frozen Xplosion also excels in. So, as you can see FX is not a limited product, it really is up to you as the creator. And again, the sky is the limit, whatever you think is a mouth watering flavor, Frozen Xplosion will exceed your expectations every time. So lets get into the recipes and start on the journey of never ending creativity.

Blend on!

Frequently Asked Questions

• **Q: Can any foodservice business put the FX blender program to work?**

A: Yes! The blender program has been used in, but is not limited to, coffee shops, restaurants, bars, internet cafes, mobile catering, college campuses, churches, and organizations such as boy scouts!

Q: Do I want to offer FX in my business?

A: Yes! Your business is important to you. You want to offer the best drinks to your customers, with an exceptional profit margin for you. FX allows you to accomplish all of that while serving a beverage that was ranked #1 in national taste tests!

Q: Can I offer multiple flavored drinks?

A: Yes! FX is a neutral mix that is lactose free, therefore you can mix FX with anything from coffee to even acidic juices like lime or orange. It also works great with fruit and protein powders!

Q: I own a bar; is FX valuable to me?

A: Yes! FX works great for alcoholic beverages!

Q: Can my group or organization use the FX blender program as a fund raiser?

A: Yes! When you purchase the blender program all you need is ice and a liquid flavoring like coffee or juice to make an awesome fund raiser!

Q: I am lactose intolerant; can I use FX?

A: Yes! FX is 100% Lactose Free!

Q: I have heard a lot in the news about trans-fats; is FX trans-fat free?

A: Yes! FX contains no trans fat!

Q: I own a health club; does FX offer me a benefit?

A: Yes! FX is so versatile that you can combine it with protein powders, juice, and fruit to make health conscious drinks!

Q: I own a small restaurant; can FX add value to my business?

A: Yes! FX provides a fantastic platform to launch a shake program in your restaurant. The blender program provides all the tools you need to create fast profits from items you currently have including the coffee that you save at the end of the day!

Q: I own an ice cream shop; can the FX blender program add value to it?

A: Yes! Now you can use your current ingredients and offer a lactose free shake to your customers. FX is even capable of being used in soft serve machines all you do is add two gallons of water to two bags of mix prior to putting into the machine!

Frequently Asked Questions

Q: I own a candy store; can the FX blender program increase my sales?

A: Yes! What an awesome opportunity to use your candy to create a signature drink. Just add crushed pieces to the blender with ice, FX and water.

Q: I am the beverage manager for a Casino and I have to keep my drink cost low. Does FX meet my goal?

A: Yes! FX offers one of the lowest per drink cost opportunities on the market... and remember it makes fantastic alcoholic beverages!

Q: I have no drink making experience and no equipment; is the blender program right for me?

A: Yes! FX is a simple 3 step process and drinks can be made in less than a minute. Once you receive your blender and FX all you need is ice and liquid and you're in business!

Q: I already have a blended drink program; should I switch to FX

A: Yes! FX is so versatile that you use one base to make all frozen drinks, you can cut down on your storage requirements, use real ingredients in your drinks, and give your customers the exact drink they are looking for!

Q: I am a mobile caterer that does a lot of fairs and festivals; is the FX blender program right for me?

A: Yes! The blender program offers all of the materials you will need to ramp up your business what else can offer the huge returns with four square feet of counter space!

Q: I am the manager at a resort; can the blender program work for me?

A: Yes! Take your blender and your portable bar to the client's poolside and rake in those profits!

Q: I like to experiment with my drink making skills; can I customize FX?

A: Yes! FX is a neutral base and can be used for all drinks. Send us an email of your favorite recipe and we will post it on our website!

Q: I have a Granita Machine; will FX work with it?

A: Yes! Simply mix two gallons of liquid to one bag of FX and pour into your granita machine.

Q: Can I mix FX in it's neutral form and stir in flavors later?

A: Yes! This works great with a soft serve or granita machine. Simply stir in your flavor after you draw your cup full of product!

Q: I own a distribution company; can I get in on this?

A: Yes! Talk about an amazing opportunity! Look at the Distributor Tab on this website..

Q: What are the nutritional facts of Frozen Xplosion?

A: Please see our nutritional facts sheet.

Blender Drinks

Blender drinks are one FX' s strongest points. The reason for this is in part portability, cost of equipment, simplicity, and little space is needed to run the blender. We like to see our customers create a whole new profit center with two square feet of space.

Portability is advantageous for the carnival vendor, or sports game vendors who need to move from region to region quickly and efficiently. The amount of time to set up a blender system and be open for business at a fair or carnival typically takes 15-20 minutes at most. And the amount of space needed to transport equipment is the trunk of your car.

Equipment cost is very low considering the amount of profit that can be made from it. A good blender usually costs anywhere from \$250-\$500, we use and recommend Waring' s MX1000XT blender because it is within the price range mentioned, and it is of industrial quality as well as being one of the only blender companies to offer a one year manufacturing warranty on their blenders.

Little space refers to the fact that all that is really needed is a small counter of space. With this you will have a very efficient way to run a booth at a fair. In the same respect if in a restaurant or espresso stand all that is needed is a countertop to accommodate the blender an extra pitcher and the FX powder

All drinks listed in this section of recipes are built under a 16oz. drink profile. If you are needing to make drinks based upon other sizes we have built a generic cut sheet with those purposes in mind. Refer to page 5 for the different measurements in cup sizes.

Coffee Drinks

Fruit Drinks

<p style="text-align: center;">12oz:</p> <p>2 ounces of FX powder 1 shot of espresso or 3 ounces of cold drip coffee A heaping 12oz. cup of ice For mocha and caramel frappes add 1.5 ounces of either chocolate syrup or caramel syrup</p>	<p style="text-align: center;">12oz.</p> <p>2 ounces of FX powder 1.5 ounces of Fruit 3 ounces of water A heaping 12oz. cup of ice</p>

Take the 16oz cup and fill with ice. Add the ice to the blender and Blend! 		

Closed Barrel and Granita Machines

This next section contains information and recipes for granita machines as well as closed barrel machines.

The recipes for granita machines and closed barrel typically are identical from recipe to recipe. The typical procedure for mixing FX in a granita machine are:

One 3lb. Bag of FX

Two gallons of cold tap water

Fruit flavoring varies based upon recipe

Mix thoroughly until dissolved. Let stand a few minutes then stir again. Pour into Machine, what will not go into machine cover and refrigerate. Mixture is good for one week, after this it should be discarded. Clean machine weekly and replace mix at the same time. For a richer taste, reduce the water by one inch prior to adding mix.

Regarding the fruit applications we recommend either our FX fruit syrup or our FX fruit crystals. With our fruit syrup it generally runs at 14oz. Of syrup and with the fruit crystals one pack per mix. However this as well is something that you as the creator can tweak.

FROZEN XPLOSION GRANITA RECIPES

<p>MOCHA FREEZE GRANITA</p> <ul style="list-style-type: none"> • Step 1 - Add Frozen X-plosion. Add 3lb bag of mix • Step 2 - Add Liquid. 8 quarts of cold brewed coffee • Step 3 - Add Flavor: Add 14 oz of Hershey's Chocolate. Combine and stir in Granita machine. Add 3lb bag of mix <ul style="list-style-type: none"> • Step 2 - Add Liquid. 7 quarts of water • Step 3 - Add Flavor: Frozen Xplosion is already vanilla flavored. Combine and stir in Granita machine. Freeze and serve

Soft Serve

This next section will contain the various recipes for soft serve application.

The typical base recipe for soft serve is:

One 3lb. Bag of FX

Two gallons of cold tap water

Fruit flavoring varies upon recipe, typically 14oz of Frozen Xplosion Fruit concentrate

Mix thoroughly until dissolved. Let stand a few minutes then stir again. Pour into Machine, what will not go into machine cover and refrigerate.

Mixture is good for one week, after this it should be discarded. Clean machine weekly and replace mix at the same time. For a richer taste, reduce the water by one inch prior to adding mix.

With the amount of fruit to use we recommend the same amounts that the granita machine would use (refer to page 14). Either 14oz. Of FX fruit syrup or 1 packet of FX fruit crystals.

<p>WILDBERRY SOFT SERVE</p> <ul style="list-style-type: none"> • Step 1 - Add Frozen X-plosion. Add 3lb bag of mix • Step 2 - Add Liquid. 8 quarts of water • Step 3 - Add Flavor: Add 14 oz of Wildberry Fruit Concentrate. Combine and stir in SOFT SERVE bucket. Freeze and serve 	<p>MANGO SOFT SERVE</p> <ul style="list-style-type: none"> • Step 1 - Add Frozen X-plosion. Add 3lb bag of mix • Step 2 - Add Liquid. 8 quarts of water • Step 3 - Add Flavor: Add 14 oz of Mango Fruit Concentrate. Combine and stir in SOFT SERVE bucket.
